Amendments to the specification are indicated in the attached "Marked Up Version of Amendments" (pages i - ii).

In the Claims

Please amend Claims 1, 5, and 16-18.

C2 1. (Amended) A hearing aid body adapted to interchangeably fit inside the ear canal of either a right side or left side of an ear of a typical user such that a distal end of the body is disposed proximally adjacent to a tympanic membrane of said user.

C3 5. (Amended) A non-specific removable hearing aid having a shell which is shaped to be inserted into and useable inside the ear canal of a right ear or left ear of a user and which houses the requisite component for a functional hearing aid.

C4 16. (Amended) A body for a hearing aid unit having an oval cross section which gradually varies from an outer dimension "B" of about .519 inch by .406 inch to a middle
